

Bio-inspired Communication for Self-regulated Multi-robot Systems

Md Omar Faruque Sarker and Torbjørn S. Dahl
University of Wales, Newport
United Kingdom

1. Introduction
2. The Attractive Field Model (AFM)
3. Communication in biological social systems
4. Communication in self-regulated multi-robot systems
5. Validation of AFM under bio-inspired communication strategies
 - 5.1 Global sensing – no communication
 - 5.2 Local sensing – local communication
6. conclusion
